WHEAT QUOTA TO BE RAISED TO 18 BUSHELS

Trade Minister MacKinnon said today in the commons that the wheat delivery quota in the west is being raised to 18 bushels per authorized acre from the present 14 bushels.

Mr. MacKinnon said it was 10% tended to have all points up to the 18-bushel quota by the end of the crop year next July 31, because of increased export movement. The raising of delivery points now on the 14 bushels quota would be deferred until points still below 14 bushels could be raised to that level.

Mr. MacKinnon gave his statement in reply to E. E. Perley (P. C. Q. Annapolis) who referred to reports that wheat would be raised to 20 bushels.

In connection with this announcement the wheat quota at the local elevators was raised to 14 bushels. This quota became effective last Saturday.

Prime Minister King is against post-war policy of power blocs.

To the strains of the wedding march the bride entered the church on the arm of her father and a beautiful in a gown of white broad-clothed satin. Her embroidered veil fell softly to the floor from a Mary Queen of Scots head-dress. She carried a shower bouquet of red roses.

The only bridesmaid, Miss Barbara Watts was dressed in pale blue tulle with a head-dress of blue and blue lace mittens. She carried pink roses.

A reception was held for 60 guests at the Tea Kettle Inn. Most interesting Stethington proposal the toast to the bride and the groom responded.

Sgt. and Mrs. Nolan left for a short honeymoon in Banff. For travelling the bride wore a brown coat topped with a dark brown mink collar, leopard skin accessories and a corsage of yellow carnations.

Some of the folks from the district went to a sale over in Vulcan last week and they say the "over seen the beat of it" Prices were sky high. "What price inflation!" It really brings home to us what inflation could do—if it wasn't for the price control board—and when it comes to buying things there is no just price for the average man.

A number of people from this district attended the High School dance in Bassano last Friday night. They all reported having a swell time. Many comments were heard

ALEXANDER MENZIES COUNTLESS RESIDENT PASSES SUDDENLY

Letters To The Editor

Some people have the idea, that only those who carry a gun, or a uniform are the ones to fight our wars. Although this seems quite logical, it is not true. There are many men in the munitions factories, which are almost as important as the man with the gun. Even he farmer plays a very prominent part in our war effort.

Here in our camps the men are working under the above principle. Many were not fit to carry a gun, others refused for various reasons. These men are working in these C. O. camps.

Very little is known of them. Are they there just because their men could not carry a gun? No, they are there because they can shoulder an axe.

About 120 men are working forty eight hours a week, in cold, wet, and dry weather. What are they doing? Just killing time? No, they are working hard, cutting miniprops.

Now all of us know that our war effort would be stopped if the production of coal would be stopped. These men are working to keep our production of coal going.

You have probably never thought of it any further than buying your coal and these all. But this coal you burn, must be mined up. And the men in these camps are cutting these props. Who was to do the work if they were not doing it?

It seems today that the wages have been increased in nearly every work in life. And yet these men are working for six and a quarter cents an hour, or 50c a day. Where in all the civilized world has anything like this ever been achieved?

One must admit that in these days of hardships and war it is important to have as many men, who will fight our wars. And even if it is important to make innocuous an enemy, it is also important to keep our industry going.

Therefore let us realize that every one is doing his share. The we wish to get the public farmer, the man in uniform, the industrialist, and also those working in the bush.

acquainted with our work, our joys and hardships, and therefore, we ask everyone to read this article carefully.

CARLOAD OF CATTLE SHIPPED
Norman Dalto of Coates shipped a load of fat steers last week that averaged almost 1300 pounds each. These animals were turned on a cover crop of oats last fall and have been the grain fed for the last six weeks. The average gain was almost 300 pounds.

A Weekly Editor Looks At Ottawa

Welcomed by the bench and the Bar when he presided over the Supreme Court for the first time on February 1st, Chief Justice Brien had the near future bright with new relationships between the individual and the state which would call for development of new concepts of jurisprudence by the Bar.

The bench... The Swedish minister to Canada still has no headquarters other than rooms at the Chateau Laurier... Still in the idea stage consideration for which was urged by the National reconstruction committee is for a national zoological garden for Ottawa... Because they were fed up last time on the difficult editing problem in the capital, Chas. Johnson and Robert Fair, Social Credit members from Alberta brought the wives along with them... A standing committee of the House will work on speeding up business... The Munitions Department plans buying 300 buses in the United States for road to essential transportation services with deliveries likely in late 1944 or early 1945... The faintest star yet known a mere 114,689,369,000 miles away although reported by some larger 'scopes can't be seen by the Dominion Observatory in Ottawa with its telescope lens only 15 inches.

The low death rate of less than 25 per 1000 Canadian soldiers during the official malaria season in the Mediterranean area can be traced to Canadian Army officials to the Mepacine tablets. Over two million of these tiny yellow tablets were issued. These are among the little things that you don't hear much about in the flurry of war.

Recently movie big-wigs were in Ottawa to view "Madame Curie" for Dan C.J. Macdonald, Acting President, National Research Council and staff at the National Research building. Plans are about ready for the six premiere of the great film in Ottawa this month. Stars are of course Greta Garbo and Canadian born Walter Pidgeon.

It is now the world's largest producer of radium so we are especially grateful to the Curies. The government is lending its name to the premiere.

Of interest to farmers—Ontario's Agricultural College reports that in many cases they have found young pigs have died due to having received overdoses of iron given for the prevention of anaemia.

Shrop shoring comes about the latter part of May in the West and a little later in the East and the Department urges that those having shoring equipment to coddle it properly owing to the metal shortage; those who intend to buy new equipment this spring to buy order without delay and if necessary have a permit from the War-time Prices and Trade Board.

RED CROSS NEEDS YOUR LOYAL SUPPORT

On the 28th of February the 10 million dollar Red Cross drive for funds starts.

As the battles over the world start to reach their climax the need for an organization like the Red Cross grows greater. Servicemen and civilians the world over look to the Red Cross for comfort and aid in time of suffering.

Some of the highlights of the Red Cross work in the past year are as follows:

(1) 27,000,000 articles have been shipped to the Armed Forces and to suffering civilians.

(2) 300 ambulances and other motor vehicles have been shipped overseas.

(3) A 600 bed military hospital was built and fully equipped in Britain and turned over to the Canadian Department of National Defence.

(4) 36 mobile kitchen units presented to British Fire Fighters.

(5) The Blood Donor Service which has saved so many lives.

(6) 2 million dollars sent to Russia and \$750,000 aid to China.

This is just part of the work that is carried on by the Red Cross, so when you are asked to give to the National appeal, give with the thought in mind that your money will be used to relieve human suffering somewhere in the world.

Another thing that should be remembered is that under the terms of the Geneva Convention the Red Cross cannot be given funds by any government but must obtain all their needs by voluntary contribution.

The Red Cross has to raise 10 million dollars in 15 days an average of \$750,000 a day.

When asked to contribute to the Red Cross drive, give generously.

EVIDENCE OF A BORN AGAIN EXPERIENCE

In the last issue of the paper we wrote of the fact that many within the Christian Church have only a form of godliness, but are strangers to that experience in Christ which puts the stamp of the new creation upon them. When one is living in a born again experience, it is clear to all—the evidence is there.

One evidence is **FAITH**. When repentance has been genuine and complete, then and only then can we exercise that saving faith which produces the spiritual transformation of the new birth. A lack of true repentance — an unwillingness to completely and fully forsake sin — will prevent saving faith from operating. We read, "This is the victory that overcometh the world, even our faith."

Another evidence is **NON-CONFORMITY TO THE WORLD**. The child of God has become a new creature — "old things have passed away."

His aspirations are new. He does not love the world or the things of the world, as he formerly did. He is a new creature. True, he acts peculiarly in the eyes of the world, but he is a new creature and he cannot act as he once did.

Another evidence is **RIGHTEDNESS OF LIFE**. We know that whatever is born of God sinneth not; but he that is begotten of God keepeth himself and that wicked one toucheth him not. 1 John 3:18.

Another evidence is that of **LOVE TO GOD AND MANKIND**. "Reloved, let us love one another, for love is of God, and everyone that loved is born of God, and knoweth God." Some say, "I do love God and I love those who love me, but I can love those who do not deserve my love. In fact

they hate me and treat me shamefully." Well, thank God there is a love which Christ brings right into our hearts, which goes out to even these, and takes them in. The love child of God can be wounded, grieved, misinterpreted and persecuted, but through it all he will love. This is a marvelous provision of Divine grace and will be manifested in truly born again believers.

Another evidence is that inward and direct **WITNESS OF THE HOLY SPIRIT** to the change wrought in the heart and life. How blessed we that we can know that our sins are forgiven, and that we are children of God! "The spirit answers to the Flood, and tells me I am born of God." This indwelling glow will shine forth and be manifested to all, expressing itself in "love, joy, and meekness."

When reading, keep a note book handy and jot down gems of thought. Have a storage bin handy for the golden nuggets discovered when studying God's Word. In this way one can reap a fresh harvest each day. Then, frequently go over them. One may tire of the best of books, but these gems, when rewritten, become something of which one will never tire because they water the soul and fertilize the mind.

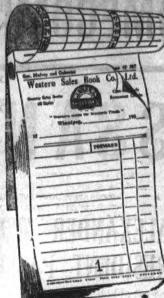

FORMER LOCAL MAN FINED FOR FISHING

Four Alberta fishermen each were fined \$25 and costs when they pleaded guilty before Magistrate Grey in Brooks to charges of fishing in Lake Newell after it had been closed five days before.

The four accused were James Hayner and Mark Dunn of Brooks, William David of Sheerness and Bert Hannick of Rose Lynn. Dunn and Hannick had gill nets confiscated.

Dunn according to reports attempted to escape in an auto mobile but was caught by the R.C.M.P. after a chase of about five miles.

THE NEED GROWS AS VICTORY NEARS

\$10,000,000 needed NOW!

This is the year of supreme effort, the year Red Cross will be needed as never before. And as our all-out victory drive gains momentum, as casualty lists mount, as the horrors of war spread wider and sink deeper, this need will grow.

We must see them through the fighting men on every front, the gallant Merchant Navy, the wounded and maimed in British and Canadian hospitals, Prisoners of War, the homeless war orphans of Britain and the suffering millions of Europe.

Only the Red Cross meets this call for vital life saving food for Prisoners of War parcels, medicines, comforts, blood serum and nursing that spell survival for so many. There is no one else to do the job.

That is why we cannot fail: why we ask you to open your hearts and purses, giving to the limit of your ability. Remember, Victory will not be cheap; the real need lies ahead.

YOU TELL ON YOURSELF

You tell on yourself by the friends you seek.
By the very manner in which you speak.
By the way you employ your leisure time.
By the use you make of dollar and dime.
You tell what you are by the things you wear.
By the spirit in which your burdens bear.
By the kind of things at which you laugh.
By the records you play on your phonograph.
You tell what you are by the way you walk.
By the things at which you delight to talk.
By the manner in which you bear defeat.
By so simple a thing as how you eat.
By the books you choose from the well-filled shelf.
In these ways and more you tell on yourself;
So, there's really no particle of sense
In an effort to keep up false pretence.

NEW RATION BOOKS OUT LATE IN MARCH

Ration Book number 4 will be sent to Canadian Consumers during the last week of March. However, I. Ross, administrator of consumer rationing Wartime Prices & Trade Board stated in Edmonton this week.

Ration book 4 which was sent to the printers on December 1 will have emergency coupon sheets, but this is merely a prudent measure designed to meet exigencies he pointed out. When a ration book goes to the printers it is prepared for nearly a year ahead. Emergencies which may arise cannot be anticipated.

Printing ration books is the biggest printing contract in Canada. Placing additional coupon sheets in the new books is relatively trivial in cost when compared to the cost in money, labor and time to issue supplementary sheets he said.

Mr. Ross, who has been a year and a half with the Press Board organized Local Ration Boards in Canada, and comments that the plan of having municipalities work with the federal administration which had never before been tried has achieved remarkable success.

600 Local Boards There are now 600 Local Ration Boards in Canada. They serve to decentralize rationing and meet community problems first hand with better understanding than correspondence to headquarters could obtain.

In issuing new ration books these Boards have played a spectacular role. Their first task, to issue 12,000,000 ration books 2, in Canada was 98 per cent complete in three days with about 60,000 volunteers helping Mr. Ross stated.

News of the Week FROM THE

Ration Notes

Hostesses to servicemen or women who have ration forms showing that they have served nine meals should present these forms to Local Ration Boards to receive coupons in exchange. Wartime Prices and Trade Board ration administration states that each nine meals served entitles the hostess to one coupon for sugar, or tea, or coffee, or preserves; to two coupons for butter or four for meat. Extra coupons are available for each additional nine meals served.

OoOoOoO

Ration coupons E1 and E2 in ration book 2 fall due on Thursday February 17th (10-day). To tide housewives over in purchasing tea and coffee until ration book 4 is issued, the ration administration, Wartime Prices and Trade Board states that yellow E coupons 1-6 in ration book 3 will be used.

OoOoOoO

Evaporated milk coupon cards provided for priority consumers by Wartime Prices and Trade Board last three months. To renew these cards, surrender the stub of the current card to the Local Ration Board. A new medical certificate is not necessary.

OoOoOoO

Men or Women enlisting in the Armed Services should surrender their ration books to the unit in which they enlist, states ration officials of the Wartime Prices and Trade Board.

OoOoOoO

Schools wishing to serve hot lunches to school children should apply to Branch offices of the Ration Administration Wartime Prices and Trade Board, Edmonton, Calgary, Lethbridge, or Grande Prairie for permission to buy ration goods.

PLAN TO MAINTAIN HOG PRODUCTION During 1944 and 1945

Every good quality hog that can be produced during the next two years will be needed.

The current bacon contract is for two years. It guarantees bacon prices and the delivery of 900 million pounds of bacon over the contract period. To help Britain maintain her present weekly ration of 4 oz. for each person Canada will try to deliver 600 million pounds of bacon this year.

IMPROVE QUALITY

Quality premiums of \$3.00 for each Grade A carcass and \$2.00 for each Grade B1 carcass have been authorized. They increase the net profit in hog production and emphasize the urgency of improving quality to protect the after-the-war position on the British market.

Hog Production is Profitable

After allowing reasonable feed allowances and liberal overhead charges to cover all possible costs the following net returns can now be expected from feed grains fed to hogs:

Wt. of Hog Live Lbs.	Selling Price per 100 lbs. dressed	Value of Hog	Quality Bonus B1 Grade	Returns per Hog	Returns for grain	Value of grain per 100 lbs.
200	\$15.00	22.50	2.00	24.50	17.50	1.75
200	15.50	23.25	2.00	25.25	18.25	1.83
200	16.00	24.00	2.00	26.00	19.00	1.90
200	16.50	24.75	2.00	26.75	19.75	1.98
200	17.00	25.50	2.00	27.50	20.50	2.05

Grade A hogs on which \$3.00 Quality Bonus is paid will return an additional 10c. per hundred for the grain used.
